2011-2012 HALF-YEAR FINANCIAL REPORT

(July-December 2011)

This interim financial report includes a statement of individuals responsible for this document, an interim management report, interim consolidated accounts and their appendix for the past six months and the report of the auditors on the review of the above.

SOMMAIRE

PERSON RESPONSIBLE FOR THE INTERIM FINANCIAL REPORT

I certify, to my knowledge, the consolidated financial statements for the half year are prepared in accordance with applicable accounting standards and present fairly the assets, financial condition and results of the company and the entities included in consolidation, and that the interim management report includes a fair review of significant events occurring during the first six months of the year, their impact on the accounts, the main transactions between related parties and a description of major risks and uncertainties for the remaining six months of the year.

M. Michel de Rosen
CEO

CHAPTER 1 – KEY EVENTS AND BUSINESS OVERVIEW

- **Revenue growth: +4.6% at €602.4 million; +6.0% at constant currency**
- **Profitability: EBITDA[1] up 3.4% to €478.5 million, generating an industry-leading EBITDA margin of 79.4%**
- **Group share of net income: net margin at 26%**
- **Excellent visibility: Record backlog of €5.3 billion up 9.6%**
- **Fleet expansion programme on track with two successful satellite launches**
- **Successful €1.8 billion refinancing of Group debt**
- **Financial targets confirmed**

Paris, February 16, 2012 – The Board of Directors' of Eutelsat Communications (ISIN: FR0010221234 - Euronext Paris: ETL) adopted the financial results for the half-year ended 31 December 2011.

Six months ended 31 December		2010	**2011**	**Change**
Key elements of consolidated income statement				
Revenues	€m	575.9	**602.4**	**+4.6%**
EBITDA	€m	463.0	**478.5**	**+3.4%**
EBITDA margin	%	80.4	**79.4**	**-1pt**
Group share of net income	€m	174.4	**156.8**	**-10.1%**
Diluted earnings per share	€	0.793	**0.713**	**-10.1%**
Key elements of consolidated statement of cash flows				
Net cash flows from operating activities	€m	371.0	**333.2**	**-10.2%**
Capital expenditure	€m	226.8	**241.8**	**+6.6%**
Operating free cash flows	€m	245.8[2]	**91.4**	**-62.8%**
Key elements of financial structure				
Net debt	€m	2,414.8	**2,379.6**	**-1.5%**
Net debt/EBITDA	X	2.75	2.53	
Backlog				
Backlog	€bn	4.9	**5.3**	**+9.6%**

[1] EBITDA is defined as operating income before depreciation and amortisation, impairments and other operating income/(expenses)
[2] Included exceptional cash items totalling €161.6 million relating to the first payments received from insurers from the loss of the W3B satellite and an equity investment reduction.

CONTINUED REVENUE GROWTH

Note: *Unless otherwise stated, all growth indicators or comparisons are made against the previous half year ended December 31, 2010. The share of each application as a percentage of total revenues is calculated excluding "other revenues" and "non-recurring revenues".*

Revenues by business application *(in millions of euros)*

			Change	
Six months ended December 31	2010	**2011**	(in € million)	(in %)
Video Applications	392.1	**403.3**	+11.3	**+2.9%**
Data & Value Added Services	116.9	**117.8**	+1.0	**+0.8%**
Data Services	*93.1*	***95.2***	*+2.1*	**+2.2%**
Value Added Services	*23.8*	***22.7***	*-1.1*	**-4.7%**
Multi-usage	57.3	**74.4**	+17.1	**+29.9%**
Other revenues	6.9	**3.3**	-3.6	**-52.3%**
Sub-total	573.2	**598.9**	+25.8	**+4.5%**
Non-recurring revenues	2.7	**3.5**	+0.8	**+30.6%**
Total	575.9	**602.4**	+26.6	**+4.6%**

First half 2011-2012 revenues increased by 4.6%. Excluding non-recurring revenues, growth was 4.5%. At a constant euro-dollar exchange rate, revenue growth stood at 6.0%.

Second quarter revenues (excluding non-recurring revenues) stood at €303.6 million, up 5.6%. Compared with Q1 2011-2012, they rose 2.8%.

Capacity constraints were alleviated with the successful launches of two new satellites (ATLANTIC BIRD 7 at 7° West and W3C at 16° East) although their entry into service came towards the end of the half year period.

VIDEO APPLICATIONS (67.7% OF REVENUES)

Video Applications recorded growth of 2.9% to €403.3 million. Sequential growth from the first to the second quarter was 3.5% as revenues benefited from additional capacity provided by the two new satellites located at key video neighbourhoods: 7° West, serving the Middle East and North Africa, and 16° East serving Central Europe and Indian Ocean Islands. Two other video neighbourhoods, 36° East and 7° East, continued to benefit from the dynamism of these markets. First half revenues were mainly driven by:

- The 7° West video neighbourhood, the leading broadcast market in the Middle East and North Africa, was strengthened by the arrival of ATLANTIC BIRD 7 delivering reinforced and expansion capacity with its wide beam coverage across the Middle East and North Africa. It took over the existing video traffic that had been developed by ATLANTIC BIRD 4A. Growth reflects, in particular, the signing of new leases mostly with strong regional media players, on the wide beam coverage extending to Northwest Africa;
- The 16° East video neighbourhood was strengthened by the entry into service of W3C, as renewal and extension contracts were signed with both public and private broadcasters in the regions covering Central Europe and the Indian Ocean Islands;
- The 36° East position, leads the expansion of satellite television in Russia and sub-Saharan Africa benefited from the existing contracts on W7, especially from long-time customers, mainly for the Russian DTH market;
- Finally, the 7° East neighbourhood, with coverage of the near Middle-East, contributed to growth as one anchor customer signed contracts for incremental capacity while another renewed contracts on the satellite W3A.

The attractiveness of Eutelsat's key video neighbourhoods was confirmed by the increase in TV channels. particularly addressing fastest-growing markets. At 31 December 2011, Eutelsat's fleet was transmitting a total of 4,173 channels, up 391, from 3,782 the year before. Over 90% of TV channel growth came from fast growing markets, including North Africa, the Middle East, Central and Eastern Europe; Russia and Africa. Three key neighbourhoods recorded double-digit growth in the number TV channels broadcast :

- 7° West, where channel count increased by 126 (+34.3%). This neighbourhood now broadcasts 493 channels to the Middle East and North Africa;
- 9° East saw a 28.9% rise in channels (up 76), bringing program offerings on 339 channels to Europe as far east as the Urals;
- 36° East, carrying 90 new TV channels (+14.8%), is now Eutelsat's second largest video neighbourhood with a total of 697 channels serving Russia and sub-Saharan Africa.

High Definition is a confirmed growth driver as the number of HD channels increased 45.1%, bringing the number of HD channels broadcast by the fleet to 283 showing a penetration rate of 7% up from 5% a year ago.

DATA AND VALUE-ADDED SERVICES (19.8% OF REVENUES)

Total revenues for **Data and Value-added Services** were €117.8 million (+0.8%) for the first half.

The first segment of this activity, **Data Services**, grew by 2.2% to €95.2 million. This segment has been largely constrained by the lack of available capacity until the arrival of new in-orbit resources on ATLANTIC BIRD 7 and W3C, with coverage of sub-Saharan Africa and Northwest Africa. The growth achieved over the period is mainly due to new contracts and contract renewals on the W2A satellite at 10° East, for connectivity between Africa and Europe; ATLANTIC BIRD 3, at the position 5° West, for services in Africa; and, W7 at 36° East, from a spot that includes Europe, the Middle East, North Africa and Central Asia for interconnection services to business networks, mobile networks and access to the Internet backbone.

Revenues for **Value Added Services** stood at €22.7 million, down 4.7%. This comparison, which masks the growth of Tooway ™ services, Internet access, is due to an unfavorable comparison with the first half of 2010-2011 which was boosted by a contract with the SNCF (French railway) and by lower sales of D-Star terminals.

The first half of 2011-2012 marked seven months since the entry into service of the KA-SAT satellite and the commercial launch of the new generation Tooway™ broadband service which addresses households in Europe and the Mediterranean Basin unserved or underserved by terrestrial networks. Revenues to date have been built mainly through a network of expert distributors and resellers in targeted regions, mainly Western Europe, and are starting to benefit from contracts from larger distributors with national reach. The first half has proven Tooway™'s technological performance on the consumer offering, as demonstrated by the positive user feedback received from distributors.

Marketing of professional services on KA-SAT, which notably include enterprise networks, began a slow rollout in the seven months following entry into service of the satellite, mainly due to the fact that these offers did not benefit from the pre-KA-SAT development phase.

MULTI-USAGE (12.5% OF REVENUES)

Multi-usage activity, which includes short-term contracts to governments and administrations who buy transponder capacity from commercial operators to meet specific needs in certain regions, recorded another half year increase of 29.9%, to €74.4 million. This performance reflects the full effect of contracts signed last year.

At constant currencies revenue growth in Multi-usage stood at 35%.

OTHER AND NON-RECURRING REVENUES

Other revenues (€3.3 million) and non-recurring (€3.5 million) revenues stood at a combined €6.8 million at 31 December 2011. Other revenues comprise contributions from activity related to service contracts with partners, some sale of equipment and the Group's foreign exchange hedging programme. Non-recurring revenues included a late delivery indemnity for the W3C satellite.

OPERATIONAL AND LEASED TRANSPONDERS

As of 31 December 2011, the number of operational transponders on Eutelsat's fleet of 29 satellites stood at 801, an increase of 22.7% compared to December 31, 2010. The majority of this additional capacity relates to the new KA-SAT programme or allocated to two recently opened orbital positions, 3° East and 48° East.

Fleet evolution

	December 31, 2010	**December 31, 2011**
Operational transponders	653	**801***
Leased transponders	590	**610**
Fill rate	90.4%	**76.1%**

* Includes 82 KA-SAT spots as transponder equivalents.

STRONG OTHER OPERATIONAL INDICATORS

BACKLOG INCREASES LONG TERM VISIBILITY

The backlog increased by nearly 10% to reach a record high of €5,339 million, compared to 31 December 2010.

This reinforces the Group's long-term visibility on revenues and operating cash flows. At 31 December 2011, the backlog represented a weighted average residual life of contracts of 7.3 years. The backlog is equivalent to approximately 4.6 times annual revenues for FY 2010-2011.

Backlog key indicators:

December 31	2009	2010	**2011**
Value of contracts (in billions of euros)	4.2	4.9	**5.3**
Weighted average residual life of contracts (in years)	*8.2*	*7.9*	***7.3***
Share of Video Applications	92.5%	92.3%	**93.0%**

The backlog represents future revenues from capacity lease agreements (including contracts for satellites not yet delivered). These capacity lease agreements can be for the entire operational life of the satellites.

CHAPTER 2 – IMPROVEMENT OF RESULTS CONTINUES

2.1. HIGH LEVEL OF PROFITABILITY MAINTAINED

EBITDA REMAINED HIGH, DELIVERING A MARGIN OF 79.4%

Group EBITDA amounted to €478.5 million, up 3.4% from last year. The EBITDA margin of 79.4% remains industry-leading among FSS (Fixed Satellite Services) operators and reflects Eutelsat's strong commercial performance coupled with effective cost control.

Operating expenses amounted to €123.9 million, up 9.8%, mainly reflecting the increase in resources dedicated to reinforcing the Group's overall commercial activity including the development of services such as Tooway™ and KabelKiosk.

NET MARGIN AT 26% DESPITE A NON-RECURRING ITEM

Impacted by a non-recurring item related to the Group's debt refinancing, Group share of net income stood at €156.8 million a decline of €17.6 million (-10.1%), reflecting:

- An increase of €21.4 million in financial expenses, linked to the non-recurring impact of the partial de-qualification of the existing interest rate swap for €23.4 million following the refinancing of the Group's debt;
- An increase of €4.6 million in corporate tax, mainly due to the 5% increase of the French corporate tax rate;
- Income from associates was down €6.0 million to €5.2 million.

EXTRACT FROM THE CONSOLIDATED INCOME STATEMENT (IN MILLIONS OF EUROS)[3]

Six months ended December 31	**2010**	**2011**	**Change**
Revenues	575.9	**602.4**	**+4.6%**
Operating expenses[4]	(112.9)	**(123.9)**	**+9.8%**
EBITDA	463.0	**478.5**	**+3.4%**
Depreciation and amortisation[5]	(142.4)	**(153.0)**	**+7.4%**
Other operating income (expenses)	(0.9)	**-**	**N/S**
Operating income	319.7	**325.5**	**+1.8%**
Financial result	(53.5)	**(66.9)**	**+25.0%**
Income tax expense	(94.8)	**(99.3)**	**+4.8%**
Income from associates	11.2	**5.2**	**-53.3%**
Portion of net income attributable to non-controlling interests	(8.2)	**(7.7)**	**-5.5%**
Group share of net income	174.4	**156.8**	**-10.1%**

[3] For more detail, please refer to Group condensed consolidated half-year accounts at www.eutelsat.com.
[4] "Operating expenses" is defined as the sum of operating costs plus selling, general & administrative expenses.
[5] Comprises amortisation expense of €22.2 million corresponding to the intangible asset "Customer Contracts and Relationships" identified during the acquisition of Eutelsat S.A. by Eutelsat Communications.

Six months ended December 31	2010	2011	Change
Revenues	575.9	**602.4**	**+4.6%**
Operating expenses[6]	(112.9)	**(123.9)**	**+9.8%**
EBITDA	463.0	**478.5**	**+3.4%**
Depreciation and amortisation[7]	(142.4)	**(153.0)**	**+7.4%**
Other operating income (expenses)	(0.9)	**-**	**N/S**
Operating income	319.7	**325.5**	**+1.8%**
Financial result	(53.5)	**(66.9)**	**+25.0%**
Income tax expense	(94.8)	**(99.3)**	**+4.8%**
Income from associates	11.2	**5.2**	**-53.3%**
Portion of net income attributable to non-controlling interests	(8.2)	**(7.7)**	**-5.5%**
Group share of net income	174.4	**156.8**	**-10.1%**

2.2. NET CASH FLOWS FROM OPERATING ACTIVITIES

NET CASH FLOWS FROM OPERATING ACTIVITIES AMOUNTED TO €333 MILLION (55.3% OF REVENUES)

The Group saw a decline of €37.8 million (-10.2%) in net cash flows from operating activities at €333 million, representing 55.3% of revenues.

This decline was mainly due to higher tax payments (+€49.7 millions compared to previous year) resulting from the increase in net profit before tax in FY10-11 compared to FY09-10. The increase in working capital was related to some late payments from large telecom operators, which were settled in early January this year.

Operating free cash flow amounted to €91.4 million, a decline on the previous year which was linked to non-recurring items including the first insurance receipts from the loss of the W3B satellite; and the reduction in the equity holding in Solaris, for a total of €161.6 million. Without these two non-recurring items, operating free cash flow would have increased 8.6%.

REFINANCING OF EUTELSAT COMMUNICATIONS' INDEBTEDNESS AND STRENGTHENED FINANCIAL POSITION

Based on the sound financial performance of Eutelsat Communications, Moody's upgraded its ratings on 20 October 2011. The long term issuer rating of Eutelsat S.A. is now Baa2 and the debt instruments issued at Eutelsat Communications S.A. are rated Baa3. Both ratings have a stable outlook.

In December 2011, the Group successfully refinanced the €1,465 million Term Loan and €300 million Revolving Credit Facility at the holding company level, both due in June 2013. The refinancing comprises:

- €800 million new senior unsecured Term Loan and €200 million Revolving Credit Facility, both maturing in December 2016, issued by Eutelsat Communications S.A.
- €800 million senior unsecured bonds bearing a coupon of 5.00%, maturing in January 2019, issued by Eutelsat S.A.

Of the €1,465 million existing Term Loan, €800 million were still outstanding in the accounts closed at 31 December 2011. This outstanding amount was fully repaid on 6 January 2012 when €800 million were drawn on the new facilities.

As a result of the refinancing, the average maturity of the Group's debt was increased to 5.1 years[8] from 3.8 years at 30 June 2011. The group has diversified its sources from 100% bank debt at 31 December 2009 to 65% bond debt at 31 December 2011.

The average cost of debt drawn by the Group was 4.48% (after hedging) in the first six months of the 2011-2012 fiscal year.

The net debt to EBITDA ratio for the first half was 2.53 times, compared to 2.75 times at 31 December 2010 and 2.37 times at 30 June 2011.

---

[6] "Operating expenses" is defined as the sum of operating costs plus selling, general & administrative expenses.
[7] Comprises amortisation expense of €22.2 million corresponding to the intangible asset "Customer Contracts and Relationships" identified during the acquisition of Eutelsat S.A. by Eutelsat Communications.
[8] Based on the maturity of the new credit facilities put in place in December 2011 and drawn in January 2012.

Net debt to EBITDA ratio

As of December 31		2010	**2011**
Net debt at the beginning of the period	€m	2,424	**2,198**
Net debt at the end of the period	€m	2,415	**2,380**
Net debt / EBITDA (Last twelve months)	**X**	2.75x	**2.53x**

Net debt includes all bank debt, bonds and all liabilities from long-term lease agreements, less cash and cash equivalents (net of bank overdraft).

2.3. OUTLOOK CONFIRMED

SOLID MEDIUM-TERM GROWTH OUTLOOK

The Group continues to target revenues of above €1,235 million for fiscal year 2011-2012, with growth accelerating in the subsequent two years to deliver a 3-year CAGR above 7% for the three year period ending June 30, 2014.

OBJECTIVE OF HIGH LEVEL PROFITABILITY

EBITDA for the current year should be above €955 million and the EBITDA margin should be above 77% for each fiscal year until June 2014.

ACTIVE AND TARGETED INVESTMENT POLICY

The Group will pursue the next phase of an active and targeted investment policy, with average capital expenditure of €550 million per annum each fiscal year until 2014.

SOUND FINANCIAL STRUCTURE

In order to maintain its sound financial structure the Group continues to target a net debt to EBITDA ratio below 3.5x, which allows it to keep its investment grade credit ratings attributed by Moody's and Standard & Poor's.

ATTRACTIVE SHAREHOLDER REMUNERATION

Over the fiscal years 2011-2012 to 2013-2014, the Group is committed to share its profits with its shareholders, targeting a pay-out ratio in the range of 50% to 75% of Group share of net income.

.

CHAPTER 3 – RISK FACTORS

Information contained in this report expresses the objectives set on the basis of the Group's current estimates or assessments. However, said information is subject to risks and uncertainties as laid down below.

The main risks which the Group is likely to face during the second half of the financial year are similar by nature to those explained under Chapter A - Risk Factors – of the Company's Reference Document as registered with the "Autorité des Marchés Financiers" (French securities regulator) and filed on 23 September 2011 under number D.11-0875.

The nature of these risks has not changed substantially during the first half of the financial year.

However, it is worth noting that the Group's activity, in particular its development and ability to meet the objectives described in this half-year report, is likely to be impacted by a number of identified or unknown risks. A significant example of the risks pertaining to the Group's activity is the technical risk associated with the total or partial loss of all or part of an operational satellite or with a launch or launch-related operations.

Furthermore, it is important to point out that the global financial crisis might fuel additional uncertainties regarding the Group's business activities and development, in spite of its limited impact on the Group's half-year consolidated accounts ended 31 December 2011 or on its activities during the first half of the financial year ending 30 June 2012.

CHAPTER 4 – CHANGES WITHIN THE GROUP

APPROVAL OF THE ACCOUNTS FOR THE FINANCIAL YEAR ENDED 30 JUNE 2011 AND ALLOCATION OF RESULT

The Ordinary and Extraordinary Annual General Meeting of Shareholders of Eutelsat Communications was held on 8 November 2011 in Paris under the chairmanship of Giuliano Berretta, Chairman of the Board. The accounts for fiscal year 2010-2011 were approved, as well as all resolutions put to the vote.

The Annual General Meeting of Shareholders also approved the proposal to distribute 0.90 euro per share, an increase of 18.4% over the previous year. This distribution, which represents a pay-out ratio of 58% of Group share of net income, was paid on 22 November 2011.

APPOINTMENTS AND AND COOPTATIONS OF BOARD MEMBERS

The Annual General Meeting of Shareholders ratified the cooptations as new directors of the *Fonds Stratégique d'Investissement (FSI),* replacing CDC Infrastructure, and Abertis Telecom, replacing Carlos Espinos Gomez. It also renewed their offices, together with the one of Bertrand Mabille. The Annual General Meeting also decided to appoint Abertis Infraestructuras SA, Tradia Telecom SA and Retevision I SA, as well as Jean-Paul Brillaud and Jean-Martin Folz as Directors.

The Board of Directors, who met on the same day, has designated Jean-Martin Folz as Chairman of the Board.

Board of Directors meeting 16 February 2012

The Board of Directors, during its meeting on 16 February 2012, accepted the resignations of the seats held by Retevision I S.A., represented by Andrea Luminari, and Tradia Telecom S.A., represented by Tobias Martinez Gimeno.

The total number of directors now stands at 10, of which four are independent.

CHANGE IN THE SCOPE OF GROUP CONSOLIDATION

Skylogic S.p.A., a company incorporated under Italian law, set up a 100%-owned subsidiary in Greece named Skylogic Hellas EPE, with retroactive effect as of 7 December 2011.

Both companies Tooway Management S.A.S and Tooway SNC were wound up without going into liquidation by decision of the sole shareholder. Their dissolution took effect upon expiry of the time within which creditors are allowed to file notice of opposition, i.e. on 31 December 2011.

DISPOSAL OF A 16.1% STAKE IN EUTELSAT COMMUNICATIONS BY ABERTIS TELECOM

On 13 January 2012, Abertis Telecom announced the completion of a process of accelerated placement with qualified investors of a 16.1% stake in Eutelsat Communications shares. Following the completion of the placement, Abertis holds a 15.35% stake in the share capital of Eutelsat Communications making it the Group's second largest shareholder behind the *Fonds Stratégique d'Investissement – FSI*.

CHAPTER 5 – RECENT EVENTS AND SATELLITE FLEET EVOLUTION

SATELLITE FLEET EVOLUTION

Entry into commercial service of ATLANTIC BIRD 7 satellite on October 23, 2011 at 7° West.

The arrival of ATLANTIC BIRD 7 on 23 October 2011 allows Eutelsat to strengthen its relationship with Nilesat, the Egyptian satellite operator that also manages its own system of three satellites at 7° West. Eutelsat and Nilesat signed a leasing contract by Nilesat of 5 transponders capacity on 10 years additional to the 24 transponders previously leased by the Egyptian operator on the Eutelsat satellite ATLANTIC BIRD 4A. The supplemental capacity further anchors the 7° West neighbourhood in the satellite broadcasting market across the MENA region, enabling Nilesat and Eutelsat to boost resources for digital channels and HDTV which is rapidly making inroads at 7° West, with 30 HDTV channels already broadcasting.

Built for Eutelsat by Astrium, ATLANTIC BIRD 7 is based on the Eurostar E3000 platform, with a launch mass of 4.6 tonnes and a spacecraft power of 12kW. Astrium was in charge of flight operations and specialised support during the Launch and Early Orbit Phase (LEOP) operations, and will continue to support Eutelsat by monitoring the satellite throughout its more than 15-year mission from its satellite monitoring centre in Toulouse.

Entry into commercial service of W3C satellite on November 9, 2011 at 16° East.

The entry into service at 16° East of high-capacity satellite W3C on 9 November 2011 significantly reinforces Eutelsat resources to service dynamic satellite broadcasting markets in Central Europe and Indian Ocean islands. 16° East, a longstanding orbital position exploited by Eutelsat, already serves over 11 million homes in Central Europe and 500,000 in Indian Ocean islands, equipped to receive broadcast services from this longstanding Eutelsat neighbourhood.

Bringing together a wide range of programs, W3C is addressing Central Europe via a high-power footprint optimised for the region and can support the development of customer who are major pay-TV platforms and public and private broadcasters using W3C include SBB, Digitalb, TV Max, Tring and TV Romania. A second regional footprint centred over Madagascar and Indian Ocean islands is serving the Canal+ Overseas, Parabole Réunion and Orange platforms as well as France Télévisions to support digital switchover in Reunion Island and Mayotte.

W3C also opens a new route to Africa, in a region stretching from Senegal to Madagascar for Direct-To-Home TV broadcasting as well as data and broadband services. To address high demand for broadband, a new platform using Sat3Play® hub technology provided by Newtec is currently being installed at Eutelsat's Sardinia teleport. Due to enter commercial service in early 2012, the new hub will provide broadband services for SOHOs, SMEs and consumers in western and central Africa.
With a scheduled in-orbit lifetime exceeding 15 years, W3C is based on the Thales Alenia Space Spacebus 4000 platform. Eutelsat's EUROBIRD™ 16 and SESAT 1 and W2M satellites remain in commercial service.

ATLANTIC BIRD 4A redeployment at 3° East

EUTELSAT 3C, having completed its mission at 7° West as ATLANTIC BIRD 4A, has now been redeployed to 3° East to address data and telecoms markets in Europe and South-West Asia.

W2M redeployment at 48° East

EUTELSAT 48B (formerly W2M), was redeployed from 16° East to 48° East, to reinforce capacity at this orbital position for markets in Central Europe, and Asia.

ORDER OF TWO NEW SATELLITES

EUTELSAT 3B will reinforce capacity at 3°East to cover Europe, Africa, the Middle East and Central Asia as well as parts of South America, notably Brazil. This orbital position was opened in 2011 by the leased satellite EUTELSAT 3A;

EUTELSAT 9B will significantly expand and diversify resources at its 9° East location which addresses high-growth video markets across Europe. Its close proximity to Eutelsat's flagship HOT BIRD satellites at 13° East also gives satellite viewers the opportunity to increase viewing choice through a dual-feed antenna.

Following the implementation of this new phase of the Company's fleet expansion and re-deployment programme, transponder capacity is set to increase by 20% in the guidance period (June 2011 to June 2014).

REFINANCING OF EUTELSAT COMMUNICATIONS' INDEBTEDNESS IN DECEMBER 2011

Since 30 June 2011, the Group has refinanced its existing credit agreements at Eutelsat Communications' holding level for a total amount of €1 765 million with maturity date of June 2013.

The refinancing took place through:

- A 7-year €800 million inaugural Eurobond issued on 7 December 2011 on the Luxembourg Stock Exchange regulated market, with maturity date of 14 January 2019. This bond was issued by the Eutelsat S.A. subsidiary. The bond carries a coupon of 5.000% per annum, issued at 99.186% percent, and redeemable at maturity at 100% of its principal amount.

- Two new 5-year credit facilities entered into by Eutelsat Communications S.A. on 6 December 2011 with maturity date of December 2016.

  - a €800 million term loan issued by Eutelsat Communications S.A. bearing interest at EURIBOR plus a margin of between 1.50% and 3.25% according to the long-term ratings assigned by Standard & Poor's (S&P) and Moody's to Eutelsat Communications S.A. The initial margin stands at 2.25%. The interest periods are periods of 6 months beginning 29 April and 29 October each calendar year, except for the two first periods which are less than 6 months.

  - a new €200 million revolving credit facility granted to Eutelsat Communications S.A. Amounts drawn for a maximum period of 6 months bear interest at EURIBOR (or LIBOR for amounts drawn in U.S. dollars) plus a margin of between 1.00% and 2.75%, depending on Eutelsat Communications S.A.'s long-term rating assigned by Standard & Poor's and Moody's. The initial margin stands at 1.75%. A fee for non-use representing 35% of the margin mentioned above is payable. The agreement also provides for a 0.15% utilisation commission if less than 33.33% of the revolving credit facility is used, 0.30% for the portion equal to or exceeding 33.33% but lower than 66.67% and a 0.50% commission for any portion exceeding 66.67%.

The credit agreement and the bond issue include neither a guarantee by the Group, nor the pledging of assets to the lenders, but they include restrictive clauses (subject to the usual exceptions contained in loan agreements) limiting the capacity of Eutelsat Communications and its subsidiaries, in particular to:

- grant security interests or guarantees;
- enter into agreements resulting in additional liabilities;
- grant loans and carry out certain types of investments;
- grant loans and carry out certain types of investments; enter into merger, acquisition, asset disposal, or lease transactions (with the exception of those carried out within the Group and expressly provided for in the loan agreement);
- modify the nature of the business of the Company or its subsidiaries.

The eurobond issue and the credit facility allow each lender to request early repayment of all sums due in case of a change of control of Eutelsat S.A. or a change of control of Eutelsat Communications (other than control acquisition by the Group's reference shareholders). This provision does not apply in case of Group restructuring.

The credit agreements allow each lender to request early repayment of all sums due if there is a change of control of the Company and of Eutelsat S.A. or in the event of concerted action. Furthermore, the Company must hold, directly or indirectly, 95% of the capital and voting rights of Eutelsat S.A. for the entire duration of the loan.

The agreement entails an obligation to maintain launch-plus-one-year insurance policies for any satellite located at 13°East and, for any other satellite, a commitment not to have more than one satellite not covered by a launch insurance policy.

The credit facilities are linked to the following financial covenants, calculated on the basis of the Group's consolidated financial statements presented in accordance with IFRS:

- Eutelsat Communications and Eutelsat S.A. are required to maintain a total net debt to annualised EBITDA ratio (as defined contractually) which is less than or equal to 3.75 to 1, this ratio being tested as of 30 June and 31 December each year.
- Furthermore, interest rate hedging is required for a minimum period of three years to limit exposure to interest rate risk for no less than 50% of the amounts drawn under the term loan facility.

The proceeds of the bond issue were used by the Group for partial repayment for €665 million of the €1 465 million term loan, the total amount of which is subsequently reduced to €800 million.

Both the term loan existing as of 31 December 2011 and Eutelsat Communications' existing revolving credit facility were totally reimbursed and cancelled as funds were made available under credit facilities on 6 January 2012.

MOODY'S UPGRADE

Based on the sound financial performance of Eutelsat Communications, Moody's upgraded its ratings on 20 October 2011. The long term issuer rating of Eutelsat S.A. is now Baa2 and the debt instruments issued at Eutelsat Communications S.A. are rated Baa3. Both ratings have a stable outlook.

ALIGNEMENT OF THE GROUP'S SATELLITES NAMES

Eutelsat Communications announced on 1 December 2011 the harmonization of the name of the Group's satellites around the brand Eutelsat with effect from 1 March 2012. The name will be associated Eutelsat satellites on behalf of the Group, followed by a number indicating the orbital position and a letter indicating the order of arrival of the satellite at the same position as in the table below:

Orbital position	Former name	New name (from 1 March, 2012)
12,5° West	ATLANTIC BIRD 1	EUTELSAT 12 West A
8° West	ATLANTIC BIRD 2	EUTELSAT 8 West A
7° West	ATLANTIC BIRD 7	EUTELSAT 7 West A
5° West	ATLANTIC BIRD 3	EUTELSAT 5 West A
3° East	EUTELSAT 3A	EUTELSAT 3A

NOTES TO THE CONDENSED CONSOLIDATED HALF-YEAR ACCOUNTS

NOTE 1: KEY EVENTS DURING THE PERIOD

- Following its successful launch on 24 September 2011, the ATLANTIC BIRD™ 7 went into operational service on 23 October 2011.
- Following its successful launch on 07 October 2011, the W3C satellite went into operational service on 9 November 2011.
- On 6 and 7 December 2011, the Group refinanced its existing credit agreements for a total amount of €1 765 million maturing on June 2013 (see Note 9 – *Financial debt* and Note 17 -*Subsequent events*).

NOTE 2: APPROVAL OF THE ACCOUNTS

The condensed consolidated half-year accounts of Eutelsat Communications as of 31 December 2011 have been prepared under the responsibility of the Board of Directors, which approved them at its meeting held on 16 February 2012.

NOTE 3: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1 – Compliance with IFRSs

The consolidated half-year accounts as of 31 December 2011 have been prepared in accordance with IFRSs as adopted by the European Union and effective as of that date. The relevant texts are available for consultation at the following Web site:

http://ec.europa.eu/internal_market/accounting/ias/index_fr.htm

They have been prepared on a going concern basis and under the historical cost convention, except for those items for which the standards require fair value valuations. The financial information disclosed in these financial statements is prepared in accordance with the option contained in IAS 34 "Interim Financial Reporting" in a condensed format. The accounts as presented do not therefore contain all the information and Notes required under IFRSs for the preparation of consolidated full-year financial statements and must be read in conjunction with the consolidated full-year financial statements for the financial year ended 30 June 2011.

3.2 – Published standards and interpretations

The accounting methods and rules used in preparing these condensed interim accounts are identical to those used for the consolidated full-year financial statements for the year ended 30 June 2011, with the exception of the new standards and interpretations as described below, which are adopted by the European Union and are to be applied after 1 July 2011.

- Revised IAS 24 "Related Party Disclosures", effective for financial years beginning on or after 1 January 2011 and endorsed by the European Union. The amendment introduces certain changes to the definition of a related party in order to ensure greater symmetry in the determination of related parties.

- Improvements to IFRSs released in May 2010, for amendments effective for financial years beginning on or after 1 January 2011. These amendments cover:

    - IAS 1 which clarifies provisions on the statement of changes in equity by pointing out that the OCI analysis must be performed for each component of equity, either in the statement of changes in equity or in the notes to the financial statements. The amendment is to be applied retrospectively.

    - IAS 34 which notes that the information provided is an update to the information provided in the latest set of annual financial statements.

    - IFRS 7 on credit risk which requires disclosure of collateral and other credit enhancements without the effect of over-collateralisation offsetting the effect of under-collateralisation.

    - IFRS 3R Amendment which (i) limits the fair value option when measuring non-controlling interests in a business combination; (ii) addresses the application of the existing IFRS 3 for earn-outs (adjustments to consideration) from business combinations recognised under IFRS 3; (iii) clarifies the accounting treatment for un-replaced and voluntarily replaced share-based payment transactions, with application date starting on 1 July 2010.

- IFRS 7 “Disclosures about Transfers of Financial Assets” released in October 2010 and effective as of 1 July 2011.

- IFRIC 19 “Extinguishing Financial Liabilities with Equity Instruments".

- IAS 32 Amendment on classification of subscription rights issued.

None of these texts has had an impact on previous financial periods nor on the consolidated half-year accounts at 31 December 2011.

Furthermore, the following standards or interpretations or amendments have been neither endorsed by the European Union nor applied in advance. The Group is currently analysing the practical impact of these new texts and the effects of applying them in the financial statements. This concerns:

- IAS 1 “Presentation of Financial Statements - *Presentation of Items of Other Comprehensive Income*", this amendment requires that when presenting items of comprehensive income, an entity makes a distinction between items that may be reclassified to income and those that would never be reclassified.

- IFRS 9 "Financial Instruments" and the amendment released in December 2011 that defers the mandatory effective date and clarifies transition disclosures.

- IFRS 10 "Consolidated Financial Statements", IFRS 11 "Joint Arrangements" and IFRS 12 "Disclosure of Interests in Other Entities".

- Amendment to IAS 12 "Income Taxes” released in December 2010 on the assessment of deferred tax assets for assets for which the entity expects to recover the carrying amount by using or selling the asset items. The amendment is applicable for financial years beginning on or after 1 January 2012.

- IFRS 13 "Fair Value Measurement".

- Amendments to IAS 19 "Employee Benefits" released in December 2011 on the removal of the "corridor" approach and the spreading of actuarial gains and losses. The amendment is applicable for financial years beginning on or after 1 January 2013.

- Revised IAS 27 "Separate Financial Statements" and revised IAS 28 "Investments in Associates and Joint-Ventures" issued in May 2010 and applicable for financial years beginning on or after 1 January 2013.

- Amendment to IAS 32 “Financial Instruments - Presentation: Offsetting Financial Assets and Financial Liabilities", applicable for financial periods beginning on or after 1 January 2014.

3.3 – Periods presented and comparatives

The six-month period extends from 1 July to 31 December 2011.

The functional currency and the currency used in the presentation of the accounts is the euro.

3.4 – Use of estimates

Preparation of the Group’s consolidated accounts requires Management to make estimates and judgements that are likely to affect the amounts of certain assets, liabilities, income and expenses appearing in these financial statements and their accompanying Notes. Eutelsat Communications constantly updates its estimates and assessments using past experience in addition to other relevant factors in relation to the economic environment. The eventual outcome of the operations underpinning these estimates and assumptions could, due to the uncertainty that surrounds them, result in the need for significant adjustment in a subsequent financial period to amounts recognised.

On 31 December 2011, the Group has not identified any major source of uncertainty relating to estimates realised as of the balance sheet date and which would be most likely to change within the coming twelve months, thereby requiring significant adjustments in the amounts recognised.

Judgements
When preparing the half-year consolidated accounts for the period ended 31 December 2011, Management reassessed all risks to which the Group is exposed, particularly those related to the dispute with Deutsche Telekom (see Note 27.4 – *Litigation,* in the consolidated

accounts as of 30 June 2011). Management has not identified any new point that would challenge its initial judgement or the assessment made during the previous year.

3.5 – Taxes

The interim income tax expense is calculated by applying the average effective rate estimated for the financial year to earnings before taxes for the period.

NOTE 4: GOODWILL AND OTHER INTANGIBLES

“Goodwill and Other Intangibles” breaks down as follows:

(In millions of euros)	Goodwill	Customer contracts and relation-ships	Eutelsat brand	Other intangibles	Total
Net value as of 30 June 2011	**807.8**	**611.2**	**40.8**	**19.0**	**1 478.8**
Net value as of 31 December 2011	**807.8**	**589.0**	**40.8**	**19.7**	**1 457.2**

The change over the period ended 31 December 2011 mainly relates to the depreciation of customer contracts and relationships.

As of 31 December 2011, goodwill was tested annually for impairment, which did not challenge the amount shown on the balance sheet. The recoverable amount was approximated using the fair value, derived from the market value of Eutelsat S.A. This market value was measured by analysing the implicit value of Eutelsat S.A. based on the stock-exchange value of Eutelsat Communications S.A. (and taking into account this Company’s debt) compared with / corroborated by the latest private transactions involving Eutelsat S.A. shares.

This method is not challenged by the present economic environment, as market capitalisation has remained fairly unchanged as compared to the figure used for the latest impairment test. In terms of sensitivity, there would have to be a negative change in the stock-exchange price of at least 73% for the fair value representing the recoverable value in this particular instance to fall below the carrying amount. Should such an event occur, a test would be performed based on the value in use..

NOTE 5: SATELLITES AND OTHER PROPERTY AND EQUIPMENT

Net assets

(In millions of euros)	Satellites	Other tangible assets	Construction in progress	Total
Net value as of 30 June 2011	**1 827.4**	**122.8**	**698.0**	**2 648.2**
Net value as of 31 December 2011	**2 162.7**	**118.7**	**496.7**	**2 778.1**

During the half-year ended 31 December 2011, the Group brought into service:

- The ATLANTIC BIRD™ 7 satellite on 23 October following its successful launch on 24 September 2011;
- The W3C satellite on 9 November following its successful launch on 7 October 2011.

Furthermore, it is worth noting that the fully amortised W75 satellite was de-orbited.

Construction in progress

As of 31 December 2011, the "Construction in progress" item mainly included the W5A, W6A, EUROBIRD™2A, W3D, EUTELSAT 3B and EUTELSAT 9B satellites.

NOTE 6: INVESTMENTS IN ASSOCIATES

Investments in associates consist primarily in equity investments in Hispasat for €185.2 million and Solaris for €6.9 million.

NOTE 7: CASH AND CASH EQUIVALENTS

Cash and cash equivalents are as follows:

(In millions of euros)	30 June 2011	31 December 2011
Cash	63.3	98.9
Cash equivalents	73.6	56.9
Total	**136.9**	**155.8**

Cash equivalents are mainly composed of deposit certificates, the great majority of which mature less than one month on the date of their acquisition and mutual fund investments (UCITS) qualifying as "cash equivalents" totalling €5.6 million and €51.3 million respectively as of 31 December 2011.

NOTE 8: SHAREHOLDERS' EQUITY

8.1 – Shareholders' equity

As of 31 December 2011, the share capital of Eutelsat Communications S.A. comprised 220 113 982 ordinary shares with a par value of €1 per share. In terms of treasury stock, Eutelsat Communications S.A. holds 657 405 shares including 57 405 shares for an aggregate amount of €1.7 million under the liquidity agreement and 600 000 shares for an aggregate amount of €16.7 million under the free share allocation plan (see below). These shares have been deducted from shareholders' equity.

The share capital and additional paid-in capital of the Company have not changed since 30 June 2011.

On 8 November 2011, the Ordinary and Extraordinary General Meeting of Shareholders decided to distribute a gross amount of €0.90 per share, i.e. a total of €197.6 million, taken from net income for the financial year 2010-2011. In 2010, the amount distributed as a dividend was €166.9 million, i.e. €0.76 per share.

8.2 –Share-based payment

Free Share Allocation

There are currently two such plans implemented by the Group in February 2010 and July 2011.

Under the two plans, the expense recognised for the period ended 31 December 2011, with a double entry to shareholders' equity, was €3.5 million.

It should be noted that as of 31 December 2011, 600 000 equity shares were repurchased under the plans for a total of €16.7 million. Furthermore, in accordance with IAS 32 "Financial Instruments: Presentation", the acquisition cost of shares bought back by the Group under the above free share allocation plans will be recorded as a reduction to the Group's share of shareholders' equity.

Liquidity offer for employees of the Group who are shareholders in Eutelsat S.A.

Since 30 June 2011, under a liquidity offer implemented in December 2011, the Group has acquired 104 539 shares in Eutelsat S.A. from Eutelsat S.A. employees.

The acquisition cost amounted to €0.8 million.

8.3 – Change in the revaluation reserve of financial instruments

All financial instruments that have an impact upon the revaluation reserve are cash-flow hedges for the effective portion.

(In millions of euros)	**Total**
Balance at 30 June 2011	**(49.2)**
Changes in fair value within equity	(34.2)
Transfer to the income statement(1)	39.5
Balance at 31 December 2011	**(43.9)**

(1) Including €16.1 million relating to coupons due and matured on the swap and €23.4 million relating to the share of the swap for which hedging relationships were interrupted following cancellation of hedged interest rate flows (see Note 15.2 – *Interest-rate risk*).

8.4 – Change in the translation reserve

(In millions of euros)	**Total**
Balance at 30 June 2011	**(0.6)**
Balance at 31 December 2011	**0.8**

The €1.4 million change does not include the €0.5 million change in the translation reserve for Hispasat.

NOTE 9: FINANCIAL DEBT

As of 30 June and 31 December 2011, the aggregate amount of bank debt is denominated in euros.

- *Financial information as of 30 June 2011 and 31 December 2011*

(In millions of euros)	Rate	30 June 2011	31 December 2011	Maturity
Term loan	Variable	1 465.0	800.0	8 June 2013
Revolving credit	Variable	-	70.0	24 March 2015
Eurobond 2017 (1)	4.145%	850.0	850.0	27 March 2017
Eurobond 2019 (2)	5.000%	-	800.0	14 January 2019
Sub-total of debt (non-current portion)		**2 315.0**	**2 520.0**	
Loan set-up fees and premiums		(14.2)	(35.5)	
Total of debt (non-current portion)		**2 300.8**	**2 484.5**	
Bank overdrafts		4.5	2.2	
Accrued interest not yet due		15.4	32.2	
Portion of the loans due within one year (excluding revolver)		0.1	-	
Total of debt (current portion)		**20.0**	**34.4**	

(1) Fair values are €859.4 million and €867.0 million at 30 June and 31 December 2011 respectively.
(2) Fair value is €807.8 million at 31 December 2011.

The weighted average interest rate on amounts drawn under the revolving credit facility for the period ended 31 December 2011 is 2.29%.

The Group also has €680.0 million available under its various lines of undrawn revolving credit.

- *Change in structure*

Since 30 June 2011, the Group has refinanced its existing credit agreements at Eutelsat Communications' holding level for a total amount of €1 765 million with maturity date of June 2013.

The refinancing took place through:

- A 7-year €800 million inaugural Eurobond issued on 7 December 2011 on the Luxembourg Stock Exchange regulated market, with maturity date of 14 January 2019. This bond was issued by the Eutelsat S.A. subsidiary. The bond carries a coupon of 5.000% per annum, issued at 99.186% percent, and redeemable at maturity at 100% of its principal amount.

- Two new 5-year credit facilities entered into by Eutelsat Communications S.A. on 6 December 2011 with maturity date of December 2016.

- a €800 million term loan issued by Eutelsat Communications S.A. bearing interest at EURIBOR plus a margin of between 1.50% and 3.25% according to the long-term ratings assigned by Standard & Poor's (S&P) and Moody's to Eutelsat Communications S.A. The initial margin stands at 2.25%. The interest periods are periods of 6 months beginning 29 April and 29 October each calendar year, except for the two first periods which are less than 6 months.

- a new €200 million revolving credit facility granted to Eutelsat Communications S.A. Amounts drawn for a maximum period of 6 months bear interest at EURIBOR (or LIBOR for amounts drawn in U.S. dollars) plus a margin of between 1.00% and 2.75%, depending on Eutelsat Communications S.A.'s long-term rating assigned by Standard & Poor's and Moody's. The initial margin stands at 1.75%. A fee for non-use representing 35% of the margin mentioned above is payable. The agreement also provides for a 0.15% utilisation commission if less than 33.33% of the revolving credit facility is used, 0.30% for the portion equal to or exceeding 33.33% but lower than 66.67% and a 0.50% commission for any portion exceeding 66.67%.

The credit agreement and the bond issue include neither a guarantee by the Group, nor the pledging of assets to the lenders, but they include restrictive clauses (subject to the usual exceptions contained in loan agreements) limiting the capacity of Eutelsat Communications and its subsidiaries, in particular to:

- grant security interests or guarantees;
- enter into agreements resulting in additional liabilities;
- grant loans and carry out certain types of investments;
- enter into mergers, acquisitions, asset disposals, or lease transactions (excluding those carried out within the Group and expressly provided for in the loan agreement);
- modify the nature of the business of the Company or its subsidiaries.

Under the Eurobond agreement, each lender may request early repayment of all sums due in case of a change of control of Eutelsat S.A. or a change of control of Eutelsat Communications (except in the case of a takeover by the Group's main shareholders). This provision does not apply in case of Group restructuring.

The credit agreements allow each lender to request early repayment of all sums due if there is a change of control of the Company and of Eutelsat S.A. or in the event of concerted action. Furthermore, the Company must hold, directly or indirectly, 95% of the capital and voting rights of Eutelsat S.A. for the entire duration of the loan.

The agreement entails an obligation to maintain launch-plus-one-year insurance policies for any satellite located at 13°East and, for any other satellite, a commitment not to have more than one satellite not covered by a launch insurance policy.

The credit facilities are linked to the following financial covenants, calculated on the basis of the Group's consolidated financial statements presented in accordance with IFRSs:

- Eutelsat Communications and Eutelsat S.A. are required to maintain a total net debt to annualised EBITDA ratio (as defined contractually) which is less than or equal to 3.75 to 1, this ratio being tested as of 30 June and 31 December each year.
- Furthermore, interest rate hedging is required for a minimum period of three years to limit exposure to interest rate risk for no less than 50% of the amounts drawn under the term loan facility.

The proceeds of the bond issue were used by the Group for partial repayment for €665 million of the €1 465 million term loan, the total amount of which is subsequently reduced to €800 million.

Both the term loan existing as of 31 December 2011 and Eutelsat Communications' existing revolving credit facility were totally reimbursed and cancelled as funds were made available under credit facilities on 6 January 2012 (see Note 17 – *Subsequent events*).

- *Debt maturity analysis*

At 31 December 2011, the debt maturity analysis is as follows:

(In millions of euros)	**Amount**	**Maturity within one year**	**Maturity between 1 and 5 years**	**Maturity exceeding 5 years**
Eutelsat Communications term loan	800.0	-	800.0	-
Eutelsat S.A. revolving credit facility	70.0	70.0	-	-
Eurobond 2017	850.0	-	-	850.0
Eurobond 2019	800.0	-	-	800.0
Total	**2 520.0**	**70.0**	**800.0**	**1 650.0**

- *Compliance with banking covenants*

As of 31 December 2011, the Group was in compliance with all banking covenants under its credit facilities.

NOTE 10: OTHER FINANCIAL LIABILITIES

(In millions of euros)	30 June 2011	31 December 2011
Financial instruments [(1)]	55.2	69.8
Performance incentives [(2)]	18.2	16.0
Finance leases [(3)]	15.4	13.2
Other liabilities	55.6	59.1
Total	**144.4**	**158.1**
- incl. current portion	*85.3*	*107.8*
- incl. non-current portion	*59.1*	*50.3*

(1) See Note 15 – *Financial instruments*
(2) Including interest related to “Performance incentives” of €5.9 million at 30 June 2011 and €5.1 million at 31 December 2011.
(3) As of 30 June 2011 and 31 December 2011, amounts of interest on finance leases are not material.

“Other liabilities” comprise advance payments and deposits from clients.

NOTE 11: INCOME TAX EXPENSE

“Income tax expense” shows current and deferred tax expenses for consolidated entities.

As of 31 December 2011, the Group's tax expense was 38%. The distortion between the Group's tax rate and the French overall tax rate is mainly explained by losses of foreign subsidiaries which were not recognised as deferred tax assets.

NOTE 12: SEGMENT INFORMATION

Over the period ended 31 December 2011, there was no change in the Group's organisation which could affect the nature of and method used for reporting financial information and business performance data to the Group's chief operating decision maker.

Therefore, as with the period ended 30 June 2011, the Group considers that it only operates in a single industry segment, basing that view on an assessment of services rendered and the nature of the associated risks, rather than on their finality. This is the provision of satellite-based video, business and broadband networks, and mobile services mainly to international telecommunications operators and broadcasters, corporate network integrators and companies for their own needs.

Revenues of the Group by geographical zone, based on invoice addresses, for the periods ended 31 December 2010 and 31 December 2011 are as follows:

(In millions of euros and as a percentage)	**Six-month period ended 31 December 2010**		**Six-month period ended 31 December 2011**	
Regions	**Amount**	**%**	**Amount**	**%**
France	78.4	13.6	70.5	11.7
Italy	89.3	15.5	95.2	15.8
United Kingdom	40.2	7.0	45.6	7.6
Europe (other)	191.9	33.3	206.9	34.3
Americas	67.8	11.8	87.3	14.5
Middle-East	62.9	10.9	64.9	10.8
Africa	39.2	6.8	26.6	4.4
Other (*)	6.1	1.1	5.4	0.9
Total	**575.9**	**100.0**	**602.4**	**100.0**

(*) Including €2.7 million and €3.5 million in indemnity payments for late delivery of satellites for the periods ended 31 December 2010 and 31 December 2011 respectively.

NOTE 13: FINANCIAL RESULT

The financial result is made up as follows:

(In millions of euros)	Six-month period ended 31 December 2010	Twelve-month period ended 30 June 2011	Six-month period ended 31 December 2011
Interest expense (banks)[1]	(57.4)	(114 .3)	(54.9)
Other interest expense [2]	13.1	27.0	10.8
Loan set-up fees	(1.8)	(4.3)	(6.2)
Commitment fees and other similar charges	(1.6)	(3.0)	(1.4)
Changes in financial instruments [3]	(1.7)	(3.8)	(24.8)
Provisions for risks and expenses	(0.7)	(1.3)	(0.2)
Provisions on financial assets	-	(0.4)	-
Foreign-exchange losses [4]	(11.5)	(25.7)	(6.2)
Financial expenses	**(61.5)**	**(125.7)**	**(82.9)**
Changes in financial instruments [3]	1.7	0.8	-
Interest income	0.9	3.1	3.0
Foreign-exchange gains [4]	5.4	12.6	13.0
Financial income	**8.0**	**16.6**	**16.0**
Financial result	**(53.5)**	**(109.2)**	**(66.9)**

[1] Interest expense (banks) includes the effects of the interest-rate risk hedging instruments employed. Coupons due and matured on the swaps and caps that are qualified as interest-rate risk hedges have affected the interest expense for the years ended 31 December 2010, 30 June 2011 and 31 December 2011 respectively by €23.0 million, €42.8 million and €16.1 million in expense.

[2] The amount shown is the interest expense net of loan costs charged to the value of the eligible assets. During the period, the capitalised costs amounted to €14.0 million as of 31 December 2010 and €30.0 million as of 30 June 2011 and €11.8 million as of 31 December 2011. They are highly dependant on the progress and number of satellite construction programmes recognised during the financial year.

The paid portion of the capitalised interest expense is included within financing expenses in the consolidated cash-flow statement under the heading "Interest and other fees paid".

The capitalisation rates used to determine the amount of interest expense eligible for capitalisation were 4.4% for the periods ended 31 December 2010 and 30 June 2011 and 4.5% at 31 December 2011. "Other interest expense" comprises interest related to satellite in-orbit performance incentives for €0.6 million at 31 December 2010, €1.2 million at 30 June 2011 and €0.4 million at 31 December 2011.

[3] Gains or losses in the fair value of financial instruments mainly include changes in the fair value of non-qualifying derivatives in a hedging relationship and the ineffective portion of qualifying derivatives in a hedging relationship. Furthermore, for the period ended 31 December 2011, these items include disqualifications/disposal of hedging instruments (see Note 15.2 – *Interest rate risk*).

[4] Foreign-exchange options' contracts are put in place to hedge future sales in dollars. Changes in the time value of these instruments (excluded from the hedging relationship) have a direct impact on income. The intrinsic value of options exercised during the year, taking into account that the hedged item has also affected the result for the year, has similarly been recognised

directly under income or expense (no net change in equity due to these options). Changes in the intrinsic value of options where the hedged item has not yet affected the result have been recognised within equity and have not affected the result for the year.

Refinancing operations over the period ended 31 December 2011 had the following impacts:

- A portion of the derivative hedging the interest-rate risk was disqualified following repayment of part of the term loan (see Note 9 - *Financial debt* and Note 15.2 - *Interest rate risk*).

- When refinancing operations were launched, the residual amount of trailing commissions associated with these credit agreements totalled €3.9 million and was recognised in the period ended 31 December 2011 using the accelerated amortisation method.

Results on financial instruments per accounting category:

(In millions of euros)	**Six-month period ended 31 December 2010**	**Twelve-month period ended 30 June 2011**	**Six-month period ended 31 December 2011**
Net result on instruments measured at fair value per result on the option (cash equivalents)	(0.9)	0.1	-
Net result on instruments valued at fair value per result (non-qualifying derivatives for hedges and components excluded from hedging relationships)	0.1	0.1	(24.8)
Financial income on assets valued at amortised cost (loans and long-term advance payments and other receivables)	-	-	-
Interest expense on loans (excluding hedging effect)	(34.4)	(71.5)	(38.8)
Reversals and (depreciation) of financial assets (accounts receivable)	1.4	(2.2)	(4.1)

NOTE 14: EARNINGS PER SHARE

The following two tables show the reconciliation between net income and net earnings attributable to shareholders (basic and diluted) used to compute earnings per share (basic and diluted):

	31 December 2010	31 December 2011
Net income	182.6	164.5
Income from subsidiaries attributable to non-controlling interests before taking into account the dilutive instruments in the subsidiaries	(8.0)	(7.5)
Net earnings used to compute diluted earnings per share	**174.6**	**157.0**

	31 December 2010	31 December 2011
Net income	182.6	164.5
Income from subsidiaries attributable to non-controlling interests after taking into account the dilutive instruments in the subsidiaries	(8.0)	(7.5)
Net earnings used to compute diluted earnings per share	**174.6**	**157.0**

There are no dilutive instruments as of 31 December 2011.

NOTE 15: FINANCIAL INSTRUMENTS

15.1 – Foreign-exchange risk

During the financial year ended 30 June 2011 and the first half of the financial year ending 30 June 2012, the Group only sold synthetic forwards with a knock-in option.

The net position in terms of controlling foreign-exchange risk at 31 December 2011 is as follows:

(In millions of euros)

Assets	113.0
Liabilities	19.5
Net position before risk management	**93.4**
Off-balance-sheet position (foreign exchange hedging)	177.7
Net position after risk management	**(84.3)**

Considering its exposure to foreign-currency risk, the Group believes that a 10-cent decrease in the euro/US dollar exchange rate would have a minor impact on Group income and would result in a negative change amounting to €23 million in Group equity.

15.2 – Interest rate risk

Interest rate risk management

During the period ended 31 December 2011, following the early partial repayment of Eutelsat Communications' term loan for €665 million (see Note 9 – *Financial debt*), the swap (pay fixed rate/receive floating rate) put in place in September 2006 (maturing in June 2013) for a notional amount of €1 465 million was partially disqualified, resulting in the recognition of a €23.4 million expense, previously accumulated under equity (see Note 8.3 - *Change in the revaluation reserve of financial instruments).*

Sensitivity to interest-rate risk

Considering the full range of financial instruments available to the Group at 31 December 2011, a ten base-point increase (+ 0.10%) over the EURIBOR interest rate would have an impact on the interest expense on an annual basis of €70 thousand in the income statement. It would result in a positive change amounting to €0.8 million in equity related to the effective portion of the change in the fair value of hedging instruments qualified as cash flow hedges.

15.3 – Key figures at 31 December 2011

The following tables analyse the contractual or notional amounts and fair value of the Group's derivatives as of 31 December 2011 by contract type. The instruments are valued by the Group's banking counterparts, and this valuation is verified/validated by an independent expert.

(In millions of euros)	Notional		Fair value		Change in fair value over the period	*Impact on income (excl. coupons)* [1]	*Impact on equity*
	30 June 2011	**31 December 2011**	**30 June 2011**	**31 December 2011**			
Synthetic forward transaction with knock-in option (Eutelsat S.A.)	107.2	177.8	1.7	(10.2)	(11.9)	-	(11.9)
Total forex derivatives	***107.2***	***177.8***	***1.7***	***(10.2)***	***(11.9)***	***-***	***(11.9)***
Swap (Eutelsat Communications) **	1 465.0	1 465.0	(55.2)	(59.4)	(4.2)	(24.2)	20.0
Collar (Eutelsat S.A.) *	100.0	100.0	0.4	(0.2)	(0.6)	(0.6)	-
Total interest rate derivatives	***1 565.0***	***1 565.0***	***(54.8)***	***(59.6)***	***(4.8)***	***(24.8)***	***20.0***
Total derivatives			**(53.1)**	**(69.8)**	**(16.7)**	**(24.8)**	**8.1**
Equity interests							(2.8)
Total							**5.3**

* Instrument not qualifying as hedges.
** Swap disqualified as a hedge for €665 million since 21 December 2011
(1) The ineffective portion of the hedges was not significant and has not been isolated.

At 31 December 2011, the cumulative fair value of financial instruments is negative at €69.8 million (see Note 10 – *Other financial liabilities*).

Impact on income statement and equity

The impact on the income statement and equity of changes in fair value of derivatives qualified as interest rate hedges on future cash flows is as follows:

- The coupons on the swap that qualifies as a cash flow hedge are directly recognised under income for €16.1 million and for €23.4 million with respect to the portion of the swap for which the hedging relation was interrupted following cancellation of hedged interest rate flows (cf. Note 15.2: *Interest-rate risk*). Changes recognised in equity for €20.0 million in relation to this swap correspond to changes in fair value excluding coupons (“clean fair value”).

NOTE 16: OTHER OFF-BALANCE SHEET COMMITMENTS

16.1 – Purchase commitments

At 31 December 2011, future payments under satellite construction contracts amount to €297.2 million, and future payments under launch agreements amount to €237.0 million. These future payments are spread over five years.

The Group has also made commitments with other suppliers for service provisions and acquisitions of fixed assets relating to the monitoring and control of satellites.

Future minimum payments in respect of such acquisitions of assets and provision of services at 31 December 2011 are scheduled as follows:

(In millions of euros)	**At 31 December 2011**
2012	56.1
2013	25.3
2014	21.0
2015	19.5
2016 and beyond	81.9
Total	**203.7**

Included in the above total is €5.7 million related to purchase commitments entered into with related parties.

16.2 – Fleet insurance

As of 31 December 2011, the Group's existing "L + 1 insurance" ("Launch + 1 year") and in-orbit insurance policies have been taken out with insurance syndicates of 24 and 21 insurers respectively, generally with ratings of between AA- and A+. Counterpart risk is therefore limited and, if any of the insurers should default, that entity's share of the insurance cover could be taken on by a new player.

The in-orbit insurance plan taken out by the Group was renewed for a 12-month period starting on 1 July 2011. The programme has been designed with a view to minimising, at an acceptable cost, the impact of one or several satellite losses on the balance sheet and the income statement. It covers losses in excess of €50 million up to a maximum of €600 million. Under this programme, 15 of the satellites belonging to the Group (excluding the EUROBIRD™4A (former W1), ATLANTIC BIRD™1, W5, SESAT1, EUROBIRD™16 (former HOT BIRD™4), W2M, W48 (former HOT BIRD™2) and W6 (former W3) satellites) are covered by insurance.

The general insurance policy taken out against damage under this programme covers any cumulative partial or total (or deemed total) constructive losses of the 15 satellites insured, up to a ceiling of €235 million per satellite and within an annual budget of €600 million. Satellites covered under this policy are insured for their net book value.

The recent Ka-Sat satellite is included in this policy as of the date of maturity of its previous “L + 1 year” policy, i.e. on 26 December 2011.

NOTE 17: SUBSEQUENT EVENTS

On 6 January 2012, Eutelsat Communications received the notional amount of €700 million under its new term loan and used its new revolving credit facility for €100 million, both amounts having been used on the same day to proceed to early repayment of the 2006 term loan for €800 million, this term loan being now fully reimbursed.

STATUTORY AUDITORS' REVIEW REPORT ON THE FIRST HALF-YEARLY FINANCIAL INFORMATION FOR 2011

To the shareholders,

In compliance with the assignment entrusted to us by your shareholders' meeting and by your articles of association, and in accordance with article L.451-1-2 III of the French monetary and financial code (Code monétaire et financier), we hereby report to you on:

our review of the accompanying condensed half-yearly consolidated financial statements of Eutelsat Communications S.A., for the period from July 1st, 2011 to December 31st, 2011, and

the verification of the information included in the interim management report.

These condensed half-yearly consolidated financial statements are the responsibility of the board of directors. Our role is to express a conclusion on these financial statements based on our review.

1. Conclusion on the financial statements

We have conducted our limited review in accordance with professional standards applicable in France. A limited review mainly consists of interviewing management in charge of accounting and financial and matters and applying analytical procedures. These procedures are less broad in scope that those required for an audit performed in accordance with French auditing standards. Accordingly, a limited review only provides moderate assurance that the condensed Half-yearly consolidated financial statements taken as a whole are free of material misstatement, being less assurance than that provided by an audit.

Based on our limited review, we did not identify any material misstatements of a nature to cause us to believe that the condensed Half-yearly consolidated financial statements are not in compliance with IAS 34 - IFRS adopted by the European Union relating to interim financial reporting.

2. Specific verification

We have also verified the information provided in the interim management report in respect of the half-yearly financial statements that were the object of our limited review.

We have no matters to report as to its fair presentation and its consistency with the consolidated financial statements.

Courbevoie And Paris-La Défense, February 17th, 2012
